

# STANDARD OPERATING PROCEDURES (SOPS)

Below are a list of suggested SOPs that all portable and mobile dental programs should have.

## Administrative Measures

- Program responsibility
- Program evaluation

## Staff Training & Education

- When training will occur
- What is included in the training

## DHCP Safety

- Exposure incident response
- Immunizations
- Sick employee/patient protocols

## Hand Hygiene

## Cough Etiquette/Respiratory Hygiene

## PPE

- Use and selection criteria
- Donning/doffing
- Disposal

## Instrument Reprocessing

- Disinfection
- Sterilization
- Storage
- Sterilization failures
- Validation & cycle testing

## Equipment Maintenance

- Reprocessing equipment
- Handpieces/ultrasonic scalers
- Portable dental units (suctions, traps, etc.)

## Environmental Management

- Cleaning & disinfection
- Barriers
- Site selection process

## Transport

- Clean supply transport
- Contaminated supply transport

## Water

- Dental unit waterlines
- Hand hygiene water

## Laboratory

- Intake
- Disinfection
